### Product information

Where we are able to supply the customer with relevant photographs, illustrations and descriptions of our products it should be noted that these have been made to the best of our ability but it should be noted that they can only be said to be a fair representation of the items in terms of form or colour and individual items may vary.

The accurate representation of both colour and textures on a computer screen is always highly subjective and so when ordering materials e.g. carpets, head linings and seating cloths we can send a sample card to assist customer choice before ordering if it is required.

In particular it should be noted that PU foam products do have minor surface blemishes or imperfections , and that these do not compromise the integrity of the item. By accepting our terms and conditions of sale you accept that these cosmetic details do not establish that the item is defective or unfit for purpose.

We also do not regard ourselves as liable for poor fit of our covers in as much as this is beyond our direct control.

The reproduction of the OEM patterns for these seat covers has been done professionally and also assumes that Peugeot produced the originals on a best fit basis.

We have tried to give a brief but accurate description of all items on the web site to comply with the Trade Descriptions Act. Should any customers think there is any misrepresentation at all, will they please advise us so that the matter can be amended.
